

Growing Scrap Tire Recycling Markets

**FREE Workshop
Preregistration Required**

Join waste tire processors, the Rubber Manufacturers Association (RMA), and the Arkansas Department of Environmental Quality (ADEQ) to discuss:

- How to overcome market barriers and increase scrap tire markets in Arkansas
- The 2015 U.S. Market Report, a result of RMA's survey of state government tire program managers throughout the country
- Current and potential future scrap tire markets

To register contact:
